## PERSONAL PROJECTS

Student Management CRUD Operation Using MERN Stack (02/2024 - Present)

- Developed a student management system during an internship using the MERN stack.
- Used React.js for UI, styled with React-Bootstrap and handled student data with Prime React Data Table and handled Employee data with AG grid.
- Managed routes and handlers with Node.js and Express.js, storing data in MongoDB.

Ecommerce Website Using MERN Stack (11/2023 - 01/2024)

- Created an e-commerce website as a part of university semester-4 individual project.
- Utilized MERN stack for full-stack development, focusing on user authentication and product management.

Matrimonial Website Using MERN Stack (08/2023 - 10/2023)

- Worked on frontend development for a matrimonial website as part of a University semester-4 group project.
- Designed UI/UX components including Admin Dashboard, Contact us, About us pages.
